JETALON EXHIBITS REAL-TIME VHP CONCENTRATION AND DEW POINT  
MONITOR AT INTERPHEX, JAPAN

*GS-88 monitor simultaneously measures vapor hydrogen peroxide (VHP) concentration,  
dew point, temperature and  $\mu$ condensation of VHP condensate*

**Tokyo Big Sight, Japan – June 3, 2010** Jetalon Solutions, Inc., a market leader in liquid chemical monitor and control systems, presented GS-88-VHP®, their new VHP concentration monitor, at INTERPHEX, Asia's leading convention for the pharmaceutical and bio technology industries. The Jetalon GS-88-VHP® concentration monitor was exhibited in the **Steris** booth installed on a Steris barrier isolation cabinet.

This was the first public exhibition of GS-88-VHP®.

Top leaders from Japan and overseas, including Jetalon president Ron Chiarello, Ph.D., presented the latest trends and the cutting-edge technologies as well as the companies' strategies to a record number of 11,855 attendees.

“GS-88-VHP® fills the vapor hydrogen peroxide (VHP) sterilization market need for a real-time VHP concentration and dew point monitor,” said Dr. Chiarello. “Key trends in the life sciences industries are paving the way for Jetalon's products in the biopharmaceuticals, biotechnology and healthcare markets, in both laboratory and manufacturing environments. INTERPHEX was the ideal conference for introducing GS-88 to the Asian pharmaceutical and biotechnology markets because of the critical need for a fast sterilization monitor.”

GS-88-VHP® uses Dew Point Refractometry© to provide real-time measurement of vapor hydrogen peroxide (VHP) concentration, dew point, temperature and  $\mu$ condensation of VHP condensate. Jetalon Solutions is the sole owner of this unique technology.

**Applications:** Jetalon's products have applications in all wet chemical processing including cleaning process, all liquid process monitoring, quality acceptance/quality control, and sterilization, but GS-88-VHP® is particularly intended for **sterilization in VHP generators and barrier isolators.**

For GS-88-VHP® Concentration Monitor pricing and availability, please [contact Jetalon](#) at 925-274-1288 or email [sales@jetalon.com](mailto:sales@jetalon.com).

**About Jetalon Solutions, Inc.** Founded in 2002, Jetalon Solutions produces next generation fluid metrology analysis systems for the most demanding manufacturing applications. Based on breakthrough technology, our miniaturized sensors offer extremely high resolution, complete process transparency and measurements in fractions of a second. Jetalon Solutions is headquartered in Pleasant Hill, CA.
